Objective

I am a new graduate from West Chester University looking for a job in the computer science field. I am passionate about learning new technologies and enjoy working with others in a team environment. I am most familiar with Java, and JavaScript, but also proficient in Python, HTML, and CSS. I am customer service oriented and always willing to help solve problems. I am looking for a position in data science, software engineering, or IT where I can utilize my skills and continue to learn new technologies. I am excited to start my career in computer science and hope to find a position that will allow me to grow and learn new things.

Education

West Chester University | Bachelor of Science in Computer Science   December 2022
    Relevant Coursework: Data Structures and Algorithms, Object-oriented Programming, Software Engineering, Network Communications, Computer Security, Calculus

Delaware County Community College | Associate of Science in Computer Science   January 2021

Projects

Notepad – GitHub Repo   *JavaScript, Java, HTML, CSS*
- Notepad is a simple note-taking app built with React and Spring Boot.
- It allows users to create, read, update, and delete notes, and uses a server to persist the notes in a database.
- The app uses React Router for navigation and React Hooks for managing state and performing API calls.

Bookedshelf – GitHub Repo   *JavaScript*
- Bookedshelf is a CRUD app made with React Native that allows users to add, edit, and delete books from their library.
- The user can also search for books using the Google Books API.
- Users can view the statistics of their library, including the top author and genre in the library.

Skills

- Java
- JavaScript
- HTML
- CSS
- React
- Python
- Word, Excel, and PowerPoint
- Customer Service
